SCIENTIFIC AND PRACTICAL
CONFERENCE AND EXHIBITION

PRO | **MOTION.**

TRANSPORT CONTROL SYSTEMS

Russia, Nizhny Novgorod,
Sovnarkomovskaya street, 13, Nizhny Novgorod Fair

From **August 18 to 20, 2026**, in Nizhny Novgorod, Publishing House “Gudok”, in conjunction with JSCo “Russian Railways”, organize the international scientific and practical conference and exhibition **PRO//Motion. Transport Control Systems**.

The event will bring together experts in rail transport and serve as the important communication platform for discussing current trends and presenting new technological solutions in transport systems and its management.

Professionals, scientists and experts from around the world will be able to exchange experiences, present the results of research and development in transport technologies, and jointly shape the direction of further technological development.

EVENT GOALS & OBJECTIVES

- Establishment of the regular technological communication platform for transport management specialists
- Organizing the exhibition display with the opportunity to demonstrate new developments
- More than 1,000 exhibition visitors and business program participants
- 700 sq. m. exhibition space
- 3 days of exhibition and business program
- More than 10 business sessions

Event period 1 every 2 years:
PRO//Motion.Expo – odd years
PRO//Motion.Transport Control Systems – even years
